

Booster Fund

BeLEARN Booster Fund:

Submission, approval, and accountability of start-up phase funding applications for BeLEARN projects

The BeLEARN Fund provides seed funding for cross-institutional innovative BeLEARN projects. Individuals jointly submit applications from at least two different BeLEARN universities. Individuals from the FFHS as well as start-ups may also submit applications if at least two universities are involved in the project. Submission, approval, and accountability of projects are governed by the following.

Individuals from two or more BeLEARN universities (and possibly individuals from FFHS or start-ups) have a joint idea for a research or development project. The idea/outline is discussed with the supervisors and all members of the group „les locomotives“ according to internal university agreements.

With internal approval from the supervisors and ideally with the support of beneficiaries, start-up phase funding can be applied for. The application is made via this form and sent to booster@belearn.swiss

It should include the following points:

Project title:

a) Abstract

Summary of points **b** to **e** :

b) Concrete project planning

b1) Contact details

Person 1

First Name:

Last Name:

Position/Job title/Role:

Tel:

b2) Translation

Applicant researchers explain here the concrete benefits for educational practice and describe the measures to transfer the research results into practice and make them applicable (translation research-practice);

Applicant start-ups explain here the concrete collaboration with the research of the two universities involved (translation practice-research):

b3) Status of research

Description of the status of research or development in the field of the planned project, particularly taking into account any projects from the BeLEARN institutions that are already completed or planned:

b4) Justification

Justification of why the project fits into the BeLEARN framework; in what way is it envisaged that the cooperation between the BeLEARN institutions involved in the project would be; if applicable, in what way will other partners be involved:

b5) Methodology

Details about the research, the methodological approach, the data situation or data collection, and the analysis or development procedure:

c) Time management

Planned start:

Planned end:

Key steps

Key steps in the start-up phase including any anticipated steps in the future:

d) Budget

d1) Budget for sta-up phase funding

	Overall Budget	Total Booster Fund	Name Partner 1	Name Partner 2	Name Partner 3	Name Partner 4
Personnel expenses in %						
Personnel expenses in CHF						
Material expenses in CHF						
Other expenses						
Total:						

d2) Other sources of funding

Are there any other sources of funding (secured, planned, or not yet defined) and what budget items will they cover?

d3) Which budget items are requested from the BeLEARN Fund?

e) Continuation

Continuation after the start-up phase: outline what will happen to project results such as websites, software, or services developed by the institutions as part of the project (who will develop them further, funding, etc.). What is the long-term vision for the project? Based on the pilot project, what are the future goals?

f) List of References
